

Mini Nicer Dicer Infomercial with Anthony Sullivan

<https://www.youtube.com/watch?v=anVZJprGngg>

I want you to meet my good friend, Lisa Brady. Lisa It's great to have you on the show. She's got a little machine that promises to take the hassle out of food prep. Look at this. Perfectly julienned carrots done in seconds. If you could do this with a knife it would take me all day. and I mean these are perfectly uniform, as well. They don't call this the mini nicer-dicer for nothing. Look at this, Lisa. These cuts are unbelievable. okay. Show me. Look at this. You've got perfect carrot sticks here for a salad. These are awesome just for decoration, and if you love to stir-fry, in a couple seconds we've got this fine, fine julienne cut without using a knife. Your hands never go near the blade, and I don't think I've ever seen a cut this fine. The finest, nicest mini cuts for decoration that a master chef would be proud to call his own.

Tears, and every single recipe calls for onions. That's unbelievable, and a lot of the times you use a food processor you end up with just water. I've got the small blade in here, and I absolutely love potato leek soup. Take a look at this. I'll open it up. These leeks are getting all the way down to the finest dice you can imagine. All I do is set the leek down here, and just apply a little pressure, and look at this. If you want to get a cut that you couldn't get with any other machine, you gotta try the mini nicer dicer. Perfectly diced leeks. And the same with these leeks too. All done with the mini nicer dicer.

I noticed you've got no knife and no chopping board. You're making quick work of those peppers. I'm gonna take some of these tomatoes. I'm using the big blade here. Now you imagine if you're doing bruschetta, or a spaghetti sauce, or salsa, or maybe umm a tomato salad. You can see perfectly diced tomatoes every time. And one of the things that's amazing to me here is just how uniform these are. Why is that? Super sharp, easy to clean, that's the quality of the cut that you get with the mini nicer dicer.

Welcome back, and today we're talking about the mini nicer dicer, and with me is Lisa Brady, and Lisa, you've shown me some amazing things that you've been able to chop, but I have to be honest, my favorite so far has been the onions. Well I see she's given me the proverbial old garlic press, so I'm just gonna go to work with this. This is the one that my grandma had, that then my mom had, and somehow ended up in my kitchen drawer, and I have to be honest, with the strength of Samson, you destroy the garlic, makes a huge mess, and in the same time it's taken me to crush three cloves. Easy to clean, great cuts, look at that. All done with the mini nicer dicer. It really is worth every single penny.

And I'm getting the hang of this, it's only been a little while but, um, a little bit of garlic here. What are you chopping up? Unbelievable. I've got some egg in here, we've got some green pepper, some red pepper, the onions here, and I'll get the little yellow pepper. It's all easy. I'll turn this over. Look at the color. All fresh. I'll mix this in. I want you to look at the difference in the chops we've got here. We've got the super fine chops for the remoulade, we've got the julienne there, and you've got perfectly diced cubes for the soups and stews. Now that is a versatile kitchen tool if I ever saw one.

We got tomatoes and onion and basil. Tell me about what you have over there. We used to go to the store and buy it. Used to cost a fortune. I mean this is easy as one, two, three to make this bruschetta. All I had in here was a little bit of garlic. We've got some basil, we've got some olives, fresh tomatoes, a little onion. You can smell that, and if you have guests coming around, why would you go to the store and buy it when you could make it this quick and this easy with the mini nicer dicer?

Exactly Lisa, and that's what I'm doing here. I'm just taking some fresh cherries. You can do as little or as much as you want. I'll do one more. But look how easily we dice these. I'll turn this upside down, and I'll

take these fresh cherries, not canned, not frozen, and we'll sprinkle those on top of that yogurt, and that will kick that will kick that up to a notch that you've never tasted before. I love fruit salad. Put it in the fridge or take a healthy snack with you to work every day.

You know what, we've saved the best til last, and that's my favorite. That's desert. Easy ad one, two, three, I haven't eaten anything this whole show, so this is my chance to actually try something, so I'm gonna take a little taste of this. It looks great, and I know it's gonna taste great, too. mmm, that's great. You know what Lisa, whether it's breakfast, lunch, dinner, desert, when it comes to food preparation, the mini nicer dicer truly is the king of the kitchen. In the meantime, we're out of time. My name's Anthony Sullivan. Thanks very much for watching, and here's how you can get your very own mini nicer dicer. We'll see you next time.

An Important Message From The Makers of OxiClean

https://www.youtube.com/watch?v=_eWd1lw3Qdo

My friend Billy Mays first introduced you to the magic of oxiclean. There was only one Billy Mays, and there's still only one oxiclean. Powered by the air we breathe, activated by the water we drink. It starts to tackle your toughest stains on contact. Remove stains and odor from carpet, and turns dingy into bright. Oxi-imitators will come and go, but oxiclean is still fighting millions of stains every day. It gets the tough stains out.

Dual Saw

https://www.youtube.com/watch?v=h5ZByk_dzT4

And I'm Anthony Sullivan. Once in every lifetime comes a product so great, so revolutionary, that it really does redefine the way we get things done. The product we're talking about today is one of those, and it's called the Dual Saw. That's right, and there really is only one way to truly grasp just how advanced this is, and that's to watch it in action. No other saw in the world can do what Billy is doing. The blades spin in both directions at exactly the same speed. Billy just set the dual saw down right in the middle of this plywood, and cut with no bite, no kick, and no splinters. This saw truly is in a league all by itself. But we're just getting started. I'm gonna use the exact same blade, but I'm gonna dial up the pressure by using it on a material way tougher than plywood: galvanized, corrugated metal. Not with the Dual Saw. You get a perfect line every time. The teeth sink in like a hot knife through butter, and he didn't even have to change blades. He's gonna take it out and sink it back in at ninety degrees. The Dual Saw cuts it in seconds. That's right, Billy. Nothing has the power of the dual saw, but I'm gonna show you something right now that would destroy any other saw. This is a solid wood baseball bat with a nail driven straight into it. This is made of pure ash. Watch what I'm about to do with the Dual Saw. The Dual Saw really is in a league of its own. Billy's about to cut through six different things. That's plexiglass done right there. Painted steel, steel he cuts straight through it. Look at the way it cuts through copper, I can hardly keep up. The soft wood is done. PVC piping if you're a plumber, and we saved the best for last. Look how it cuts through hardwood flooring. And the best part about the Dual Saw is that you're able to cut all these different materials without changing blades. In fact, the Dual Saw replaces five different blades that can cost up to thirty dollars each, so it practically pays for itself.

Okay, we've got two identical safes and two different saws. One is an ordinary grinder, and the other is the Dual Saw. And Krystal, who is a saw novice, is gonna attempt to do the same job using the Dual Saw. Crack the safes. Woah, woah, woah. Krystal has cracked the safe. Krystal, the Dual Saw, how easy was it to use. I mean you cut a precise square in there into the safe.

So how does the Dual Saw hold up on everyday household jobs? Well I tried to cut a pet door the wrong way before with a jigsaw, and actually broke the blade. It was a nightmare. But the Dual Saw is gonna make this a breeze. Watch this. What I'm working on right now is a simple pet door, but try this without a Dual Saw and it's a lot harder than it looks. First you have to make pilot holes and drill them, and then use a saw-zaw or a jigsaw on aluminium the vibration is terrible and even dangerous because the tip of the blade keeps hitting the other side of the door, but look how with no pilot holes, no drilling, and using easy plunge cuts in both directions, the Dual Saw gets the job done in no time. Now that is a perfect cut for a perfect fit, and that's DIY made easy.

Make all your projects a cut above the rest with the Dual Saw. Up until now, these are the kind of saws you could use. The old fashioned hand saw. Back and forth, back breaking work, and the blade always used to bend. If you've ever cut metal, you've used a hacksaw. Again, lotta work, and you spend a fortune on broken blades. Then there's reciprocating saw and the jigsaw. So much vibration you end up damaging the surface, the blade's break, you never get an accurate cut. And then, of course, the circular saw. So heavy and so powerful, it generates so much heat, and because of the kick, very, very dangerous. Do make the Dual Saw an asset to your tool collection.

If you think what you've seen so far is impressive, wait til you see what's next. Frederick, are you in there, buddy? Ok, when Billy says "start cutting," start cutting. Frederick, it's great to have you on the show for real. Unbelievable. In fact, before we cut this car, we actually have some footage of the Dual Saw in a rescue situation, so take a look at this.

Now that was impressive, but that was a whole team of firefighters cutting open a car. Frederick's gonna take the ultimate challenge and cut this car in half, live in the studio. Frederick, unbelievable. If I hadn't have seen it with my own eyes, I wouldn't have thought you could do it. Earlier today, you asked me to bring an egg to the studio. What's the story with the egg?

While the Dual Saw's been designed with you in mind, even experts love the ease and versatility of the Dual Saw.

You've seen the Dual Saw cut all kinds of materials in the studio.

You just watched Wes and Paul practically dismantle this German-engineered car using the Dual Saw. They even cut through this torsion bar. Thanks, guy. You've seen lots of demonstrations today showing the versatility of the Dual Saw. It cut wood, metal, and plastic, and with the optional diamond blades, it even cut through tile, marble, and stone. It's great to know that all the power, precision, and versatility for all thousands of your cutting needs can be found right here in the Dual Saw. I'm Anthony Sullivan. Get your car.

Fork

<https://www.youtube.com/watch?v=ltxLeLGoZDk>

Hi, Anthony Sullivan here for McDonald's new signature crafted recipes; sandwiches with the exquisitely exquisite flavors of pico guacamole, maple bacon Dijon, or sweet barbecue bacon. But when savoring these recipes, there's a hitch you just can't ditch; the topping dropping. This is a real problem. Wait, sorry. Is this a real problem? Probably not, but good news. We solved it anyway with the flavor-focused, fundamentally superfluous Fork, so you can pico all the pico guacamole, save your bacon with sweet maple seasoning, or get all the sweet onion B-B-Q for Y-O-U... r-s-e-l-f. The Fork is ludicrously easy to use. Its ergonomic design makes it handy for righties and lefties. The Fork even works in the dark. So call

one-eight-four-four McD-Frork now to see how you can get your very own Frork. But wait, there's more. Call now and we'll maybe do some other stuff like this here, and here, and right here for free.

Grater Plater

<https://www.youtube.com/watch?v=URUBcuNIIQo&list=PLB257F264F99BF49C>

Hi, Anthony Sullivan here for the grater plate. It's no ordinary plate. Watch this. Grate cheese with ease. There's no wrong way to use it. Back and forth, side to side, round and round. All the cheese stays in the plate. Pass it around the dinner table and grate as you go. Use it for pasta, pizza, or salads. For zest, it's the best. Whether it's a lemon, lime, or orange, you get perfect results each and every time. Nothing's greater for garlic. Watch this. You get the clove, the whole clove, and nothing but the clove. And the best part is all the juices stay right in the plate. You get the consistency of garlic butter without the butter. Add some olive oil and herbs, and it becomes a dipping plate. Soft enough for little hands, and it won't even pop a balloon. The secret's the hardened, tempered ceramic design that never dulls. It's triple glazed so nothing sticks. Don't cut a finger trying to grate ginger with one of these. The grater plater is the best ginger grater you'll ever use. There's no strings attached, and all the essence stays right in the plate. Use it for baking, chocolate, cinnamon, even coconut is no match for the grater plater. Call today and get the grater plater for just ten dollars. But I'm just getting started. With every order, we'll include the roll and peel. Take a clove, and give it a roll. Peel all the garlic you like without ever touching it. You'll even get the gathering brush to mix all the flavors together, and top your favorite foods. But spend ten dollars with me today, and I'll spend ten dollars right back with you. Call right now, and we'll double this entire offer absolutely free (just pay separate processing and handling). You get it all - a huge value all for just ten dollars. Here's how to order.

OxiClean Laundry Detergent (Laundry Aisle)

<https://www.youtube.com/watch?v=BsEMVEOLjIE>

Big news from oxiclean, America's number-one versatile stain fighter. Oxiclean is shaking up the laundry aisle. Introducing new oxiclean laundry detergent. Its thick, rich formula is powered by three color-safe oxiclean stain fighters to break down and lift out these tough dried on stains the first time. Look, you'll get brilliant whites and vivid brights after every wash. For a deep clean inside and out, make the switch and try it today. Plus save up to twenty percent versus the leading brand.

OxiClean Removes Stains With The Power of Oxygen!

<https://www.youtube.com/watch?v=C-9t0W7NsQg>

Switch to oxiclean. Add the power of oxygen to every load to boost your detergent and remove stains better than the leading brand. It also tackles tough carpet stains and odors too. Oxiclean: it gets the tough stains out.

Edge of Glory

<https://youtu.be/HUFVBr9uu48>

have you got a drawer full of knives that are about as dull as a doorstep hi Anthony Sullivan here for the edge of glory the best knife sharpener money can buy it's so precise it'll turn this plastic credit card into precision cutting instrument the edge of glory is no ordinary knife sharpener its jewel hardy ceramic teeth hone any blade to a razor's edge that'll put the bite back into your dulllest knife tired of squashing Tomatoes use the edge of glory to get perfect slices every time is your break getting the better of your bread knife no problem if you've got the edge of glory it locks on to any smooth surface then just draw the knife 1 2 3 and that old knife cuts like new and ready for more we took this plastic credit card and tried to cut a tomato nothing happens but 1 2 3 4 and now it's got an edge of glory that slices like magic the edge of glory brings any knife back to life it works on chef's knives fillet knives paring and peeling

knives it even works on some serrated the edge of glory is the safest easiest way to put the sharp back into your old knives so don't spend a bundle on new knives when you can get the edge of glory for just \$10.99 order now and find out about free shipping but it gets even better we'll double the value and send you two edge of glory sharpeners and the ultimate chef knife watch as its razor-sharp blade cuts through this nail and still slices the tomato wafer thin you can cut right through bone sliced meat like a deli machine and zip through vegetables with ease it's the ultimate chef's knife yours today as a special bonus just pay separate processing that means you get two edge of glory sharpeners and the ultimate chef knife a huge value all for just \$10.99 and remember order now and find out about free shipping

H20 Mop X5

<https://youtu.be/nlutuA3daeU>

hi I'm Anthony Sullivan and today I'm going to be talking about cleaning with steam and if you've ever thought about owning a steam cleaning machine the new x5 takes steam cleaning to a whole new level on every level firstly at the push of a button it'll turn ordinary tap water into steam in less than 30 seconds you'll be cleaning at 230 degrees but the x5 is more than just a mop first it's a multi surface floor steamer second it's a carpet steamer third it's a handheld steamer fourth it's a window glass and mirror steamer and fifth it's a great garment and upholstery steamer now the x5 uses ordinary tap water you can use hot water or you can use cold water there's no pressure it heats up in less than 30 seconds and you can adjust the steam and even when it's full it weighs less than five pounds it's easy to use and it's lightweight and remember when you clean with steam you sanitize you deodorize and you clean all at the same time the steam will break down the dirt and when you combine the dirt trapping power of microfiber you've got double trouble for all your floors in your kitchen or your bathroom the steam will break down the dirt the grease and the grime and the microfiber will trap it in there clean with the power of steam at 230 degrees its chemical free think of the money you'll save because you're only cleaning with water and if you have pets in children it's safe now for marble floors or stone floors turn to the power of steam with the x5 the steam will loosen the dirt the grease and the grime it'll clean and polish all at the same time and this floor will dry in less than 60 seconds with a streak-free shine now on laminate floors pergo floors you can always depend on the power of steam watch it cut through the stain dirt grease muddy footprints grime I'm not cleaning with chemicals I'm cleaning with only water get off your hands and knees and clean with steam at 230 degrees now I've been using this on maximum setting all I'm gonna do now is use the adjustable steam control and turn it down to a lower setting and we're gonna go to work on this wood floor it cleans and it polishes leaving a streak-free shine and no chemicals whether you've got scuff marks or just dirt and dust you can use steam all day long but I've saved the best til last tile if you're looking for a streak free shine you can depend on the power of steam and the power of microfiber to trap the dirt it cleans and it polishes all at the same time and it'll even kill up to 99% of Salmonella and e-coli when you clean with the power of steam you clean you sanitize and you deodorize using just the power of steam it's also an amazing carpet steamer and it comes with a glider for using on carpets and there's a reason for that but if you want to breathe life back into or refresh your carpets then wait till you see how the x5 works I'm actually gonna draw on this carpet using this wax pencil this could be dirt could be grease grime or muddy footprints now even when it's full of water the x5 weighs less than five pounds it's lightweight and it's easy to use and when you put it in the glider it glides effortlessly over carpet the steam penetrates deep into the carpet relaxing the NAP and it will break down the dirt the grease and the grime you're cleaning at 230 degrees that stain is gone so if you've ever thought about renting a big carpet cleaner or hiring professionals save your money and your time and keep it clean using the power of steam now I want to show you how the x5 goes from being one of the best steam mops you'll ever use to being one of the best handheld steamers you'll ever use all I gotta do is unclick the handle like this push the button on the base of the mop now I've got one of the best handheld steamers you'll ever

use one touch operation will heat this steam up to 230 degrees in less than 30 seconds you can use this to clean every surface in the kitchen I'm gonna start with the kitchen sink come and take a look at this if you've got a garbage disposal and you've got odors all you got to do is place the x5 handheld unit down one side and look at the steam rise out of the other side you're cleaning your deodorizing and you're sanitizing using the power of steam with no chemicals now all I'm gonna do is turn it off and grab the jet nozzle now I love the jet nozzle because what it does it actually concentrates the steam look how quickly this fires up look at the way the steam concentrates I get excited when I do this it breaks down the build-up the dirt the grease and the grime it'll even kill up to 99% of Salmonella and e-coli and it polishes without using chemicals look at that it's clean now I want to talk about chopping boards you can't put a wood chopping board in a dishwasher because it'll warp watch this think of all the food preparation that you do on your chopping board don't use chemicals blast it using the power of steam look at it break down all the mass on this chopping board to get rid of bacteria from raw chicken from fish neutralize the salmonella look how this just cuts through the grease in the grime that chopping board is clean and I've done this right before your eyes right here look at that there's your before and there's your after all clean you the power of steam the jet nozzle also comes with a brush attachment I want you to think about this cooktop whether you have gas or electric or a glass one like this they are hard to clean the food stains get everywhere okay my crew have burned this on this could be baked on burned on you steam no need to rub no need to scrub no need to use chemicals all I'm gonna do is wipe that away it gets into all the nooks and crannies whether it's baked on or caked on the proof is right there on the rag all using the power of steam with the x5 another great attachment that comes with the x5 is the extension hose and the dusting and polishing bonnet if you got stainless-steel appliances like this fridge you know you have fingerprints on them and you normally have to break out the stainless steel cleaner watch the steam go to work it cleans and polishes at 230 degrees and what I like about using steam is in less than 60 seconds the fingerprints are gone and the stainless steel is clean and dry it just makes sense to clean with steam when we come back you'll see the x5 work on glass grout and even garments all cleaned using the power of steam --- when you clean in the bathroom you come into contact with some of the most dangerous chemicals that you'll ever use including chlorine bleach that's why I love cleaning with steam you're cleaning at 230 degrees look at the way the x5 cuts through the dirt on this bathroom floor you're cleaning you're sanitizing and you're deodorizing all at the same time it's quick it's easy it's effortless and it's hot and if you think the x5 is a great mop in the bathroom wait till you see me use it as a handheld steamer one of the things that I like best about cleaning with steam in the bathroom is the fact that you're cleaning with superheated water and that means no chemicals especially in confined spaces so if you want to clean around your sink fixtures use the power of steam now right now I'm using the jet nozzle but I want you to see it gets in these hard-to-reach areas it'll get around your fixtures you don't have to rub and scrub and inhale those chemicals and you can see all that is just melted down the proof is on the pad but even if you just use the x5 for this next job I promise you it is worth every single penny clean sanitize and deodorize with superheated water at 230 degrees you hear that that's the sound of clean that's the sound of steam all coming from the x5 and if you think that's good wait till you see this in the shower when it comes to cleaning a shower your tub or your tile you want to use the jet nozzle with the nylon brush watch how good it cleans this tile grout can be one of the hardest things to clean in the bathroom and the last thing you want to do is to be trapped in a confined area with chemicals and a toothbrush with the x5 using the nozzle with the nylon brush you can see the hot steam blasting away the grime with just gentle scrubbing whether it's vertical grout or horizontal grout in your shower or on the floor let the x5 be your go-to cleaner turn it off OneTouch operation all I do is wipe that wall down and that bathroom looks as good as new all cleaned using the power of steam another great attachment that you get with the x5 is the window glass and mirror cleaner you're gonna love it all I'm gonna do is turn it on and you'll see in seconds the steam already starts to come out and you've got a coral microfiber

bonnet here with a squeegee attachment why am i using it in the shower if you've got hard water stains on your shower doors watch this all you got to do is let the steam do the work it's gonna start to break down the hard water stains break down the soap scum now you're cleaning with steam let the microfiber break it down and then you've got the squeegee all I do is I run the squeegee right across there and that glass is clean when it comes to steaming your clothes you've got a couple of options you could spend hundreds of dollars a year on dry cleaning or you could go out buy a steamer like this now this cost almost three hundred dollars it's heavy and it takes forever to heat up or you could use the x5 because it comes with a garment and upholstery steamer one touch and it starts to steam immediately watch this for your delicate fabrics all you do is let the steamer run over the fabric and every wrinkle will drop out just by running it down there the steam does the work of a steam iron without having to break out an ironing board or the iron the steam glides right over the buttons saving you time this shirt is perfect and don't just use it for garments you can use it for curtains or drapes you can even use it to refresh and deodorize bedding and it's great for upholstery too it's one more reason while the x5 is the only steamer you need in your house the x5 will leave all your surfaces with a streak-free shine that's the combination of steam and the dirt trapping power of microfiber and to demonstrate it I've got a big grime-up piece of glass right here with a mirror underneath watch this as I push the x5 through the stain the steam breaks it down and the microfiber traps the dirt you can see the proof it's right there on the pad one of my favorite things about the x5 is that even when it's full it weighs less than 5 pounds and it has OneTouch operation and when I say OneTouch operation I mean just one touch you can see that it starts steaming almost immediately and you combine the power of steam with the dirt trapping power of microfiber and just watch what it does to your floor's let me remind you you're cleaning with steam you're not cleaning with chemicals it weighs less than five pounds it'll cut through the grease in the grime the reason I've got this maze here is I want you to see how agile the x5 is its specially designed triangular head gets up against your baseboards and I don't want you to forget that unlike other steamers the x5 has adjustable steam so if you've got delicate floors or water sensitive wood floors like this you can turn it down to a setting that's right for the surface you're cleaning and let the steam and the microfiber go to work get up against your baseboards you're using superheated water and for my next job I'm going to turn it up to maximum because I want to get into the grout on this tile now watch this without any effort the steam penetrates it goes deep down into the grout getting rid of all the dirt the grease and the grime using the power of steam and using microfiber you can just let the steam sit there and it'll almost clean by itself but this is double trouble for pretty much every floor in the house because you've got the combination of superheated water with microfiber it's quick it's easy and it's hot and did I say it was lightweight it weighs less than five pounds but I want you to watch this this is marble a surface that most people are afraid to clean look at the path of clean you get when you use the x5 with no effort no rubbing no scrubbing I'm not down on my hands and my knees I'm not breathing in nasty toxic chemicals just effortlessly letting the x5 glide across the surface cleaning polishing sanitizing deodorizing all at the same time at less than 5 pounds with variable steam you can go straight for marble to your delicate wood floors to your water sensitive surfaces and if you want to get underneath your bed underneath your couch watch this it lays practically flat you can see it gets rid of the dirt the grease and the grime I've just cleaned all these surfaces with one tank of water and one pad when it comes to cleaning your floors the x5 is amazing

mighty thirsty

<https://youtu.be/x-Jvljn-Gb4>

hi Anthony Sullivan here for mighty thirsty the super absorbent vacuum block that drinks up over eight times its own weight in liquid now there's your spill mighty thirsty is made of a liquid loving PVA material that sucks up water like a thirsty camel and notice not a drop of liquid spills look sticky grape juice orange juice milk or coffee mighty thirsty drinks it all up and is still thirsty for more and this surface

is dry sponges just don't absorb but nothing absorbs liquid like mighty thirsty watch this a glass of water a glass of juice and a cup of tea all gobbled up by mighty thirsty without a drop on the countertop this entire roll of paper towels gives up but mighty thirsty keeps on absorbing and you won't find a better glass cleaner it'll remove fingerprints without using chemicals and leave your glass crystal clear spills on carpet don't reach for a roll of paper towels reach for mighty thirsty that stain is gone in less than five seconds all around the house mighty thirsty never stops drinking plus it rinses clean to use over and over again call now and you'll get two large mighty Thirsty's to gulp up spills all over the house plus two mighty thirsty minis to attack spills in the car or at the office all four for just \$19.99 but wait call right now and we'll double the entire order plus we'll even add the Jumbo mighty thirsty for the major disaster spills absolutely free we'll also include the mighty thirsty towel now rinse and dry your car boat or RV that means you get the towel the Jumbo mighty thirsty four large and for minis a mighty \$80 value all for just \$19.99

Anthony Sullivan - ProTrim Self-Guiding Paint Roller

https://youtu.be/k_wAooDTiUc

hi Anthony Sullivan here with a great new invention it's called the pro trim shielded paint roller and if you've ever painted a room before you know how long it takes to tape up and cut in with a small brush the pro trim changes the way you paint it's a self guiding mini roller that does the hard work for you place the shield against the trim and the roller against the wall and let your woodwork be your guide it's like a train on a railroad track right or left handed it gives you a clean professional look wall-to-wall the clever design presses the paint to its finest point no paint leaks underneath and you get a straight edge every time here's how it works load the roller with the paint adjust the spring-loaded arm with one hand and let your woodwork be your guide use it up high on crown molding save time by painting around fixtures and fittings like light switch plates or lamps it's great for windows and door frames too it's small enough to paint furniture like bookshelves by the time you would have taped this window up you have finished with pro trim the pro trim is specially designed to fit into small areas like bathrooms where it'll glide around mirrors cabinets and ceramic tile when you remove the shield getting into tight areas and feathering out rough spots for uniform texture is easy too because there's nap on the inside that'll paint both sides of an inside corner saving you time use it outside on lap siding and fencing the pro trim works with oil latex or stains and the rollers are refillable replaceable and re-washable even expensive electric rollers like this can't cut in like the pro trim call now and you'll get the pro trim for just \$19.99 it comes complete with the paint tray and the instructional guide but call in the next five minutes and we'll include three extra rollers a \$15 value free that means you get the ready to use Pro trim the paint tray the guide and three extra rollers all for just \$19.99 so call this number right now here's how to order

First Alert Instant Alarm

<https://youtu.be/73Ns4wHQe9Y>

hi Anthony Sullivan here for the First Alert alarm system it'll make your home safer for you and your family it installs in seconds with no tools and no wires as soon as the door is opened the alarm goes off use the First Alert alarm system on every window in the house as soon as it's opened you'll be alerted it can help safeguard young children by alerting you and they get into places that they don't belong use it on sliding doors as soon as the magnetic seal is broken the alarm goes off if you have a swimming pool the First Alert alarm system is great and lets you know where your children are going and they add extra security for people who live alone and the elderly there's even a chime feature that's great for use as a doorbell for a home or a business the First Alert alarm system installs in seconds just peel off the backing stick them on and it's an easy way to add security and get peace of mind each unit uses sensor technology as soon as the magnetic field between each unit is broken the alarm goes off so even if

somebody breaks a window with the First Alert alarm system the 90 decibel alarm will go off as soon as the window's opened the First Alert alarm system lets you worry less and provides more security for your entire family call now and you'll get four first alert alarms complete with batteries for just \$9.99 but order right now and we'll double the value just pay separate shipping and handling that's right you'll get eight first alert alarms complete with batteries for just \$9.99 this television offer is not available in stores here's how to order

Magikan

<https://youtu.be/WmGfjEq4s-s>

it's a dirty job and nobody wants to do it hi Anthony Sullivan here for the Magikan the sanitary clean hands odor free garbage solution it's as easy as one two three simply open the service door pull down the trash cut the liner with the built-in safety razor and tie the bottom off for the next bag and since you empty Magikan from the front you never have to face the garbage again the Magikan features a 72 foot continuous liner which makes enough bags to last for three to four months use as much or as little liner as you need and you'll save money by not wasting bags no more bugs or spills from pets even babies can't get into it because it's completely sealed for no spill ring holds the liner in place so it won't get pulled down by heavy items and it can even hold liquids without spilling the Magikan's unique continuous liner design eliminates the waste and saves you the hassle of replacing individual bags and the liner is strong and flexible so it won't tear like most conventional liners ordering refills is easy just call the toll free number order online or we can arrange to ship refills right to your door automatically so you'll never have to worry about running out of liners again and since the three to four month supply of refills costs only \$5.99 you'll spend less than two dollars a month on bags call now and you'll get the 11 gallon Magikan for only twenty nine ninety five but don't order refills now your magic ham will arrive preloaded with a three to four month liner supply absolutely free so if you have trash then you need the sanitary clean hands odor free garbage solution the original Magikan here's how to order

SteamBoat

https://youtu.be/9Oic1Vp5_mw

hi Anthony Sullivan here for the steamboat the five-star rated flexible silicone solution for steaming all kinds of foods. Watch this. Perfect omelets in minutes with no added oil fats or butter. The secret's the strength of the silicone seal. It's airtight and water tight. And the oval design makes it ideal for cooking two at the same time so you can make two meals together. Use the steamboat to reheat and re-eat leftovers. They'll look and taste better than ever. Microwaves can dry food out but not with the steamboat. This shrimp is cooked to perfection and this rice is moist and tender. The handles stay cool to the touch. You can put a gourmet twist on mac and cheese by adding a little lobster. The steamboat can withstand temperatures up to four hundred and twenty five degrees. Chicken fajitas sizzling hot. No mess, no oils, and no fat. Your kids will love you for family favorites like chili cheese dogs. Make them quick, fast, and easy in the steamboat. Salmon dries out, but not in the steamboat. Flaky, moist, with great body and great flavor. The steamboat is flexible, yet strong. Tough enough to stack these three bricks. They're dishwasher safe, stackable, and each lid is exactly the same. Call or click now and get the silicone steamboat for just twelve ninety nine. You can even bake in the steamboat with no oil cause it's oven safe. But order now and you can double the offer. We'll even include a steamboat recipe book free. That means you can get two steamboats and a recipe book for twelve ninety nine. And when you order, don't forget to ask about our special price on our family four pack. Order now and find out about free shipping.

GPS Pal

<https://youtu.be/pAn0XP2d89c>

hi Anthony Sullivan here for the GPS pal and while this may look like an ordinary cup it's actually being cleverly designed to hold your GPS safely in your cup holder and keep all the wires out of the way here's how it works all you do is slide the insert into the holder aligning the slots place your GPS on to the insert using the suction cup plug the car adapter cord into the GPS unit and tuck the excess cord into the

holder now your GPS is secure and there's no more tangled cords because the cords are neatly tucked inside the GPS pal makes it easy to move your GPS from one vehicle to another and you won't have to try to hide it from potential thieves the universal multi step design allows the gps pal to fit into all size cupholders use it in cars trucks boats or RVs so stop using messy damaging adhesive dash mounts replacing Sun damaged suction cups or having to reach over the steering wheel to program your GPS with the GPS pal your GPS is always secure and easy to reach and your windshield will be free of obstacles for safer and better vision call now and get the GPS pal for just ten dollars but that's not all order right now and as a bonus we'll also include this dual car power outlet a \$10 value it pivots 180 degrees and works on all your portable electronic gadgets but call right now and we'll also send you a second GPS pal free just pay separate shipping and handling that means you get two GPS pals and the dual car power outlet a \$50 value all for just \$10 but you've got a call now here's how to order

Go Duster

<https://youtu.be/6YcGKqRMKi0>

hi Anthony Sullivan here for the incredible go duster the spinning duster that may cause you to enjoy dusting it's printed right on it forget dingy dirty dust rags and say goodbye to the fuss of feathering turn to the incredible spinning power of the go duster it's completely cordless and goes anywhere it's perfectly balanced and feels great in the hand and conforms to all shapes and sizes making dusting quick and easy to go duster is powerful enough for the big jobs and is gentle enough to use around the most expensive antiques use go duster on any surface in your home it seems to get into places more often that you tend to ignore it's impossible to clean plants with a dingy old dust right but watch is the go dust it gets it done and dusted in no time the secret's the rotating action combined with the tens of thousands of dusting fingers that create static and that's why it works on blinds it's the best it'll get rid of the dust and cut your cleaning time in half now you can do an entire room in just a few minutes use it up high or use it down low and open spaces or anywhere you need to bust the dust nothing dusts in hard-to-reach areas like the go duster it easily conforms to all shapes and sizes call now and you'll get the go duster with the extra long head for just two payments of \$9.99 but that's not all but also include the medium head that's great for smaller jobs call today and you'll also receive the mini heads it's a must-have for keyboards and is great in the car they're a \$10 value and they're yours free just pay separate shipping and handling that means you get the go duster with all three heads a huge dust busting value all for just two payments of \$9.99 here's how to order

Grill Glove alt

<https://youtu.be/NwnvRbjPgI4>

Hi Anthony Sullivan here for the grill glove the heat resistant cooking glove that puts the power of the grill in the palm of your hand. The grill glove is made of one hundred percent food grade silicone so you can grab your grub right off the grill. Flip hamburgers hotdogs and steaks with ease. The grill glove's designed to give you the perfect grip for every flip. Hot potatoes are hard to handle, but the grill glove resists temperatures up to 500 degrees making it perfect for hot baked potatoes and more and there's nothing better for ribs than the grill glove. The built-in flame deflection technology triples the surface area protecting your hand longer. Still not convinced? Watch as I hit the grill glove with this thirty four hundred degree blow torch and it's barely even warm and it's waterproof. You can grab an egg right out of a boiling pot of water and it's great for lobsters too. Regular oven mitts get burned and crusty but the grill glove resists temperatures up to 500 degrees. Even if you accidentally touch the flames, you still don't get burned and it's easy to clean and dishwasher safe. Call now and get the grill glove for just fourteen ninety-nine. But order right now and I'll double the offer. You'll get a second grill glove a fifteen dollar value yours free. That's two grill gloves for just fourteen ninety nine. Now you can flip entire roasts briskets even a full rack of ribs but I'm still not done. You'll also receive the lava mitt, a fifteen dollar

value yours free too. Just pay separate shipping and handling. Use it for hot broiler pans cookie sheets cake tins and more. That means you get two grill gloves and the lava mitt a forty five dollar value all for just fourteen ninety nine so call or click now here's how to order.

Arm&Hammer Essentials

<https://youtu.be/LQjc6wX09Cg>

Hi Anthony Sullivan here. Did you know that the leading household cleaners consist of up to ninety five percent plain old water? Why pay extra for water. Now Arm and Hammer has created essentials cleaners an environmentally sensible and less expensive way to clean. It's easy to use just fill twist and go. Fill the empty bottle with tap water. No need to tear off the foil. Just twist on the cartridge filled with powerful plant based cleaners to easily create exceptional cleaners that are effective and safe. Essentials multi-surface cleaner easily wipes away the toughest household messes across all surfaces. Versus traditional cleaners essentials delivers outstanding results with no harsh chemical fumes. When it's empty do your bit for the environment by reusing the same bottle with our refill cartridge. Just fill twist and go. Think about it. Reusing bottles is smart. It's all about reducing waste. We're throwing away sixty billion pounds of plastic waste every year. That's enough empty bottles to fill the empire state building eighty two times. With Arm and Hammer essentials you reuse the bottle and help save the environment so just fill twist and go for exceptional cleaning that saves money wastes less and is safe for you and your family. There's also essentials cleaner and degreaser and glass cleaner. Both deliver outstanding cleaning results on even the toughest messes and the refills cost up to twenty five percent less while creating less waste. We're so sure that you'll love essentials we want to send you one for free. Call now or go online at tryessentialsfree.com and we'll send you our multisurface cleaner free. Just pay shipping and handling. Arm and Hammer essentials. Exceptional cleaning that saves money and wastes less. Here's how to get yours for free.

One Sweep

<https://youtu.be/Qtdo0GjFD10>

my name is Anthony Sullivan and every house needs a good broom right chances are you've got something like this at home you see ordinary brooms corn or vinyl Flair dirt and dust flies everywhere if you want a clean sweep then check out the one sweep the secret is the rubber bristles when pressed down they form a squeegee action when you use it pull don't push nothing stays behind in New England people love the one sweep for wood floors in one pass it gets it all and it doesn't scratch the floor for ceramic tile it's the best it gets into the grout that can trap the dirt and tile is hard to clean but the one sweep gets into hard-to-reach areas even corners the one sweep can be used wet or dry just use a little soap and the brushing action scrubs so you don't have to the one sweep stays clean and sanitary and when you're done just flip it over and squeegee the floor dry it's great for the garage or around the pool for drywall sawdust grass leaves or sand but here's what really impresses me carpet for high-traffic areas steps or stairs the one sweep goes deeper than even the most expensive vacuum cleaner cat hair dog hair long hair short hair your hair my hair the one sweep gets it all the secret is short strokes now watch even dirt and hair that is normally left behind is lifted out the one sweep creates static and that's why it works breathe life back into old carpet the domestic one sweep normally sells for \$29.99 but order today and you'll receive it for just \$10 that's right just \$10 but call in the next five minutes and we'll double the value you'll receive a second one sweep absolutely free just pay shipping and handling that's two for way less than the price of one one wet one dry one indoor one outdoor here's how to order

Grater Plater alt

<https://youtu.be/rjRXtwJK6P4>

hi Anthony Sullivan here for the Grater plater it's no ordinary plate watch this nothing's greater for garlic you get the clove the whole clove and nothing but the clove and the best part is all the juices stay right in the plate you get the consistency of garlic butter without the butter add some olive oil and herbs and it becomes a dipping plate there's no wrong way to use it grate cheese with ease back and forth side to side round and round all the cheese stays in the plate pass it around the dinner table and great as you go use it for pasta pizza bread or salads for zest it's the best whether it's a lemon lime or an orange you get perfect results each and every time soft enough for little hands and it won't even pop a balloon the secret's the elongated evenly spaced nubs covered with multiple coats of ceramic for easy cleaning rapid movement across the surface quickly breaks down and shreds food without cutting fingers don't cut your finger trying to grate ginger with one of these the grater plater is the best ginger grater you'll ever use there's no strings attached and all the essence stays right in the plate use it for baking chocolate cinnamon even coconut is no match for the grater plater call today and get the grater plater for just \$10 with every order we'll also include the roll and peel take your clove and give it a roll here all the garlic you like without ever touching it you'll even get the gathering brush to mix all your flavors together and top your favorite foods but spend 10 dollars with me today and I'll spend 10 dollars right back with you we'll double this entire offer you'll get a second set free just pay separate processing and handling you get it all two grater platers 2 gathering brushes and 2 roll and peels a huge value all for just \$10 here's how to order

Lappers

<https://youtu.be/tQ5RvreYBFs>

hi Anthony Sullivan here for lappers by masterbuilt the tray specifically designed to hold all your food firmly in place even when tilted or turned the secret's the patented silicone mat they grip your dishes to prevent them from slipping and sliding lightweight lappers make a wonderful serving piece watch this two plates of food and two drinks regular trays only work when they're level and flat but if they tip you lose your lunch not with lapper trays everything and I mean everything stays safe and secure they're perfect for a comfy breakfast in bed for dinner in front of the TV or even snacks by the pool the large sturdy handles make lappers easy to carry even up and down stairs and their deep design allows for extra large loads use lappers at your next barbecue or tailgate party and they're great for kids lappers stack for easy storage and cleanup's a breeze the tray and the mat are dishwasher safe call or go online now to get your lapper tray for only \$19.99 but if you order right now will double the value you'll get a second lapper tray free just pay separate shipping and processing buy one get one keep one give one the non-slip grippy food grade silicone mats are great for hot or cold food and they can be easily removed to use as hot pads or pot holders you can even use them to open that pesky jar of pickles make life a little easier and order your lappers today you get two lappers in your choice of green lattice or multicolored circles for the unbeatable price of just \$19.99 so call or click now here's how to order

H2O SteamFX Pro

https://youtu.be/Thf_FNJaHrl

hi I'm Anthony Sullivan the steam specialist and h2o has been bringing you amazing steam cleaning innovations for over 10 years so we know a thing or two about steam and today I'm excited to bring you the latest innovation from h2o the all-new h2o steam FX pro this is the most lightweight the most powerful the most versatile the most innovative and the most affordable steam cleaning system that h2o has ever offered re-engineered from the ground up to combine all the pros of a full sized floor steamer with all the ease and convenience of a handheld unit this truly is the best steam cleaning system that I've ever seen this is the all new steam FX pro everything about the steam FX Pro is new watch this the new pro has dramatically improves steam technology so it cleans better than ever before and the steam is distributed for an 8-channel distribution system so you get more efficient steaming now on chemical

sensitive surfaces like marble terrazzo you can depend on steam it'll clean and polish without using any chemicals so it's safe watch what happens this is sticky chocolate syrup the steam will literally melt this mess right before your eyes and the microfiber will lift and lock it in you're cleaning and polishing without using any chemicals now to change the pad it's super simple all you do is you step on the tab the pad comes right off if you want to put a new one on just press it down and you're ready to go they're reusable and they're washable now let's talk about wood floors the new steam FX Pro is the steamer to clean and polish your wood floors to a streak free shine you clean and you polish all without using chemicals and let's save the best to last that's tile no chemicals no soapy residue just a clean streak-free shine on all your surfaces so whether you're cleaning tile wood laminate a chemical sensitive surface like this or any surface around the house you know that the new steam FX pro is the best steamer that money can buy one of the great features with the new steam FX Pro is the oversized easy fill water tank I've also added a three-foot extension hose to show you how you can clean up just about any mess on any surface if you want to get rid of grubby fingerprints on any type of surface let the steam remove them chemical free and let the coral microfiber pad lift and lock it in for window glass and mirrors steam is the best watch this no streaks no smears you clean and you polish that glass to a streak free shine now for stainless steel say your fridge or your oven you don't need to buy a cleaner you can just use steam no streaks no fingerprints you get a perfect finish and even sticky messes on a marble countertop instead of using chemicals you clean you help sanitize you deodorize without using any chemicals so ditch the chemicals and clean every surface in and around your home using nothing more than the cleaning power of steam with its lightweight design hotter steam and larger head the new steam FX Pro is not just great for cleaning hard surfaces it's also amazing for carpets too watch this now I'm gonna use it with the pad right now to tackle this stain this is wax pencil on a black carpet all I do is I run the pad over the stain what's gonna happen is the steam is gonna penetrate the carpet start to loosen that stain and it's gonna actually lift it out of the carpet onto the pad I'll turn it over and you can see the stain right there on the pad but the steam FX Pro also comes with a carpet glider all I've got to do is set the oversized head into the carpet glider if you want to refresh and revive and deodorize and breathe life back into old carpets you just drop it in and you run it over your carpets once again the steam is going to penetrate the carpet through that 8 channel steam distribution system and it's gonna start to relax the nap it's gonna refresh and revive and make that old carpet smell and feel like new so whether you're helping to get rid of stains or refreshing and reviving you can depend on the power of the steam FX Pro the new steam FX Pro comes with some amazing attachments to make cleaning and steaming all around your house quick and easy and it converts from a full-size floor steamer into a handheld steamer in a snap just snap off the floor attachment take the jet nozzle and listen to this now I've got one of the best handheld steamers money can buy the steam FX pro packs some serious power and to prove it I'm gonna clean this greasy range hood filter but I'm gonna put a block of ice in between the steam FX Pro and it now watch this I'll set it down and I'll let it go to work the new eco-friendly steam generator generates super hot steam look at this at a whopping 110 degrees Celsius in our last show we blasted through a block of ice in this show it's double the thickness if you're looking for a steam cleaner with some power I got it right here it's the new steam FX pro there is nothing better at cleaning grout than the steam FX Pro all I do is add the nylon brush to the jet nozzle and watch this you've got superhot powerful steam and grout is one of the most difficult things to clean let the steam do all the scrubbing and just let that nylon brush lift that dirt and grease out of the grout whether it's in the bathroom or in the kitchen if you want to clean grout the fastest easiest most efficient and best of all most affordable way to do it is with a steam fx pro with its more powerful and hotter steam the steam effects pro is unbelievable for cleaning and helping to sanitize but it's also fantastic for getting rid of odors too watch this --- for cleaning and helping to sanitize in the bathroom there's nothing better than a steam FX pro especially when it comes to doing one of the grossest jobs in the house and that's the toilet now this toilet looks clean to the naked eye right but if I wave this ultraviolet light over it you can see it's gross this is when you turn to the power of

the steam FX Pro use it with jet nozzle and the nylon brush and just let it go to town okay you are cleaning and helping to sanitize without using chemicals it's got a nice long nozzle so you don't have your hands close to the net and when you hold this on a hard surface for 10 to 15 seconds you help kill up to 99% of germs like e.coli and Salmonella and all those nasty little cooties that you get on the toilet like this I'll turn it off and I'll wipe it down and you'll see in a matter of seconds this toilet went from disgusting to look at this I'll waive this ultraviolet light over it it's as clean as a whistle if you need to clean and help sanitize your bathroom you can depend on this guy right here the steam FX Pro makes the toughest cleaning jobs in the bathroom quick and easy and I love it because there's no chemicals and it's great for soap scum lime scale hard water stains or buildup the steam comes out at a whopping 110 degrees centigrade it'll melt down pretty much anything it comes into contact with combine that with the power of the coral microfiber and also you've got a squeegee head look at this you get a streak free shine each and every time that's the easiest way to clean your shower when you think of steam cleaning you may just think of cleaning hard surfaces but the steam FX pro is also amazing for fabric and upholstery especially bedding take an old mattress for example sometimes you want to refresh you want to deodorize it you want to revive it just run the hottest steam from the steam FX Pro over your mattress you can refresh deodorize it and you can tackle bedbugs too pillows exactly the same thing it's difficult to put them in the washing machine just run the steam FX Pro over a pillow help get rid of odors refresh and revive and if you've got an old blanket or a throw to take this to the dry cleaners or put it in a washing machine is a giant headache just turn on your ultra lightweight steam FX Pro and let the steam do the work look at that so if you want to refresh revive and deodorize turn to the steam FX Pro the new steam FX Pro generates hotter steam than ever the Eco powered steam generator is located in the handheld unit this means you can get into tighter spaces than ever before watch this you've got an improved flow rate with the 8 channel steam distribution but look at the way the head gets into these tight spaces and swivels around the corners if you need to get in and around furniture underneath the bed without moving it all you do is let the steam FX Pro go to work it gets into tight spaces its ultra maneuverable and even if you want to get down low look at the low profile here you've got steam you've got power you've got microfiber so if you want to get into tight spaces steam and clean around furniture without moving it nothing makes it easier than the new steam FX Pro the steam fx Pro is the best steamer money can buy it's super versatile but what I love about it is I can hold it with one finger it weighs just over a kilo so if you want to get your steps and stairs done check this out it's super light super easy and the head has been designed to perfectly fit your steps and stairs you've got eight channels of steam distribution and a longer running time with a bigger tank if you want to steam your rugs and carpets drop it into the included carpet glider run it over your rugs and carpets you can refresh revive and deodorize and if you've got pets the steam FX probe is the best because you're cleaning without chemicals safe on wood safe on tile all of your floor surfaces your cats and dogs will thank you for it and best of all if you want to go from a full-size steamer into a handheld steamer it is literally one click I'll put on the jet nozzle with a nylon brush and let's talk about kids you're cleaning you're deodorizing and you're helping to sanitize every single thing that your kids come into contact with even things like this so whether you're using it as a full-size steamer as a handheld steamer what I'm holding in my hand right here is as good as it gets--- with more power and hotter steam if you want to clean into nooks and crannies and corners and crevices there's nothing like the steam FX Pro and this is the extreme cleaning nozzle check this out if you've got buildup in a hard-to-reach area I want you to see the steam FX Pro literally blasts out the build-up and the debris without even touching it this nozzle will get into areas that you couldn't get into with a toothbrush it literally melts down this buildup and cleans with laser-like precision right into the corners into the areas that you can't even see I'll wipe that away and clean that up even if you're on a range whether it's gas or electric check this out this nozzle will get right into those tight hard-to-reach areas the nooks and the crannies the corners the tight spaces where the build-up gets in there you're cleaning without chemicals then if you want to switch it out for messes that are

burned on our baked-on I'm gonna use the jet nozzle with the nylon brush check this out this is a burned on baked on greasy mess watch what happens when I use the steam FX Pro the heat of the steam and the agitation from the nylon brush literally emulsifies and melts down the grease and the burned on baked on mess this hasn't seen the light of day for who knows how long and you can actually see the print coming back to life let me wipe that away right there and you can see look at the difference using nothing more than steam but I've saved the best for last and that's the oven look at this this is one of the jobs where you normally use the most toxic chemicals in the house with the steam fx pro with an eco powered steam generator the jet nozzle and the nylon brush it makes quick work of one of its toughest jobs in the house no toxic fumes no chemical lightweight easy-to-use whether it's baked on burned on or years of build up I'll wipe that away and you can see the mess right there on the rag if you want to get your kitchen clean without using chemicals you can depend on this guy if you ever spilled anything in your fridge it can be a cleaning nightmare you can't use chemicals because it's filled with food which means you have to empty it out but you can use the steam FX Pro if you want to clean anything in your fridge look at this I'm using with the extreme cleaning nozzle right now it literally melts away that stain effortlessly and don't forget it's safe around food so if you ever spill anything in your fridge forget using chemicals and use steam FX pro when held on some hot surfaces for 10 to 15 seconds the steam FX pro can kill up to 99% of germs by E coli and Salmonella if you're cleaning a food preparation surface you don't have to use any chemicals you can avoid cross-contamination it's safe around your food it's safe around your kids and it's safe around pets you clean you deodorize and you help sanitize using nothing more than the power of steam wipe that down you've seen h2o steam effects Pro quickly clean spots hard surfaces and upholstery chemical free using just the power of steam it's lightweight it's easy to use and best of all it's also a great value it just makes sense to clean with steam my name is Anthony Sullivan thanks for watching and here's your last chance to order your very own steam FX pro

OxiClean Triple Power

<https://youtu.be/7f1U9iiglkQ>

today everyone's looking to save money that's why OxiClean created triple power liquid it removes stains brightens colors and whitens whites all in just one product so effective one drop destroys this oily stain as a pretreat it goes to work tackling tough stains on contact all our wine and make it tougher OxiClean takes away the stains but not the color save one shirt and OxiClean pays for itself cleaner whiter brighter that's the power of OxiClean

Homedics Dreamshield

<https://youtu.be/3OLWrv3GPuw>

hi Anthony Sullivan here and while you might like to ignore this horrible fact, dust mites are multiplying in your bed right now, but now there's a simple solution from homedics: dreamshield ultra pillow and mattress protectors. Only the breathable dreamshield ultra provides four-way protection from dust mites, moisture, stains, and even bacteria. One in four people suffer from allergies and asthma caused by dust mites. With normal sheets and pillow cases, they crawl through while you sleep, but dreamshield ultra creates a barrier so tight that dust mites can't make the round trip. When you consider that your pillow and mattress will double in weight every ten years from dust mites and their waste, you owe it to yourself to protect you and your family. Dreamshield is stain resistant. Moisture can't penetrate. Spills just wipe away. Dreamshield ultra is ultra soft with true 300 thread count cotton providing total three hundred and sixty degree encasement as they help protect your mattress and take it from me they're so comfortable you'll get a great night's sleep. They earned the Good Housekeeping seal and carry homedic's ten-year guarantee. The dreamshield ultra collection comes in all sizes. Call now and get a pillow shield for just \$19.99. Try it for thirty days and if you're not 100% satisfied, return it for a full refund, but take advantage of this offer today, and we'll double the value. That's right, you get a second

one free. That's two pillow shields, a \$40 value all for just \$19.99. We'll even pay the shipping and handling. So say goodbye to dust mites and pick up the phone and take advantage of this two for one offer right now and experience the dreamshield difference tonight for just \$19.99. Here's how to get yours.

OxiClean Dishwashing Booster (2012)

<https://youtu.be/Oc8fx85vvbE>

here's some good news introducing OxiClean dishwashing booster the power of OxiClean supercharges your regular detergent see how it makes this copper pot look like new OxiClean breaks down stuck on grime detergent alone can miss so dishes are cleaned the first time stop wasting time and money rewashing dishes new oxy clean dishwashing booster clearly better it's in the dishwashing aisle

Amazing Knife

<https://youtu.be/p701rEG9wg8>

Tired of knives that just don't cut it? Anthony Sullivan here for the amazing knife, the knife with a lifetime guarantee. The amazing knife will cut through a soft skin tomato like a hot knife through butter. Watch how the amazing knife cuts through frozen food. The same blade cuts through the same tomato. It's the weight of the knife that does the work. Watch as we run the same amazing knife over this steel hammer. You can see the filings on the paper. Watch. The same knife cuts the same tomato paper thin. Now that's what we call sharp. It'll even cut through a can and still cut perfect bread slices every time. The amazing knife sells by itself for thirty dollars, but order now and you'll pay just ten dollars, but I'm not done. You'll also get the amazing filet knife. It slices so thin, you can filet a filet. Any thinner and it would only have one side. It's a twenty dollar value and it's yours free, but I'm still not done. We'll also include the precision paring knife. Use it for peeling and delicate cuts. Every house needs one. Yours free too, and it gets even better. You'll also receive four amazing steak knives. They're free as well. All this for just ten dollars, and order now and find out about free shipping, and here's my amazing guarantee. If you ever damage any knife, even if it's your fault, we'll replace them. It's the knife that's good for life, but if that's not good enough, order now and you'll get a complete bonus second set. Just pay separate processing. That means you get fourteen amazing knives with our amazing lifetime replacement guarantee all for just ten dollars. That's right, just ten dollars. Don't let the low price fool you. These amazing knives will last a lifetime, and remember, call right now and find out about free shipping.

MyGoldEnvelope

<https://youtu.be/zwB5NZ3BWx4>

Hi, Anthony Sullivan here. Gold is at record-setting prices, and if you want to turn your gold into cash, you need to know about my gold envelope. My gold envelope is simple, fast, and promises to pay more than other national advertisers. If you find a higher price, we'll double it. That's our double-g guarantee. My gold envelope will give you more cash for your gold than anyone else guaranteed, and you get paid fast. Here's how it works. Simply pick up the phone and call or go to mygoldenvelope.com and get a free submission kit. Then just send your broken or unwanted gold jewelry in the free prepaid and fully-insured mailer. Your gold is tested for purity, weight, quality and karats and within 24 hours we send you a check or you can even have the money credited to your paypal account that same day. My gold envelope accepts any kind of gold, even unwanted and broken gold, necklaces, rings, watches, chains, and more can be turned into cash. My gold envelope even allows you to track your package online so you know where it is at all times. If you find a higher payout, we'll double it guaranteed. If you're not one hundred percent satisfied with the cash you receive, simply return the check within seven days, and you'll get your jewelry back no questions asked. So why wait? Make a call or go online and turn your gold into cash today.

OxiClean MaxForce LiquiGel

<https://youtu.be/Jud8ReNrUps>

detergent doesn't remove every stain and bleach may whiten your clothes but it's a disaster if you spill it on colors now there's a better way to fight stains and whiten laundry OxiClean max force liquigel with more power in every drop to remove tough stains and get your clothes whiter plus it's safe for colors thick OxiClean liquid gel beats other in wash liquids at getting out grass chocolate and even barbecue sauce see the difference OxiClean maxforce liquigel stain removal to the max

Lil Lamps LED

<https://youtu.be/y3DahtzFAnw>

spaces tight spaces nowhere for a light spaces hi Anthony Sullivan here for little lamps LED the battery-operated light bulb that you can install without an electrician if you have a tough time trying to get into tight spaces let little lamps LED light up the way no matter how tight the space you can mount them just about anywhere and they pivot up or down so you get the right amount of light where and when you need it kids love lil lamps LEDs in toy chests and closets it puts the light right within their reach if the power goes out light up your circuit breakers quick and easy or use them to illuminate a stormy night they slide out in a snap and act as a handy Lantern ordinary flashlights use batteries fast in the bulbs burn out but lil lamps LED use battery saving technology stay cool to the touch and can last for up to 100,000 hours other LED lights can blind you but lil lamps LEDs special design gives you soft bright peripheral light it's the little lamp that can light up a big space they use triple A's a water-resistant and don't break like glass use them inside lower cabinets or under the bed to light up a tight space just think of all the spaces in your home where you could use just a little extra light this shed's got no power but with little lamps LED you can light it up quick and easy take them outside to light up a path for a party you could pay an electrician almost 100 dollars to install one light bulb or you can stick it up in seconds with lil lamps LED and pull the cord for instant light call or click now and get four lil lamps LED for just ten dollars but it gets even better order right now and we'll double the value just pay a separate fee so illuminate your small spaces and nowhere for a light spaces and shine on with will lapse LED just ten dollars here's how to order

OxiClean generic ad (2011)

<https://youtu.be/yFLtlalxx5s>

got tough stains then you need OxiClean used it as a pre-soak it'll save your clothes and works better than the leading spray oxi clean whitens whites and it's safe on colors without the harmful effects of chlorine bleach oxi clean it gets the tough stains out

Ale House Roaster

<https://youtu.be/im2i-wZw6QY>

hi Anthony Sullivan here what does a bird in a beer have in common it's the best tasting chicken ever and you can get it with my new Ale House roaster the old way using a beer can is messy not anymore with my new Ale House roaster you get the most succulent the best tasting chicken without the mess just pour your favorite beer into the cylinder and add your chicken then season it to taste and place it in the oven or throw it on the grill as the ale house roaster heats up the beer evaporates infusing the chicken the cylinder sears the chicken on the inside and locking in the moisture while the outside gets golden and crispy watch the end result the best tasting chicken ever the alehouse roaster makes the best chicken you've ever tasted never dried out and always juicy you can use beer wine orange juice barbecue sauce even bourbon the alehouse roaster is easy to use and takes the guesswork out of getting perfect chicken juicy on the inside and crispy on the outside but here's where it gets even better you can use it to make an entire meal in one easy step place vegetables on the roasting rack and corn or potatoes on the spikes whether you're using the oven or the BBQ the ale house roaster cooks a whole chicken dinner in no time and it's healthy because the fat drips away and it's dishwasher safe so clean up's easy if you like chicken you'll love the alehouse roaster call now and you get the alehouse roaster complete with roasting rack beer cylinder and drip tray all for just \$19.99 we'll also include the chef's quality carving set a \$20 value absolutely free slice perfect pieces of chicken every time that means you get the complete ale House roaster with recipe book and the two piece carving set a huge value all for just \$19.99 here's how to order

Tap Light (HQ)

<https://youtu.be/ljCOM9EEg8E>

hi my name's Anthony Sullivan and here's another great invention for around the house it's called the tap light if you've ever fumbled around in the dark looking for a light switch then those days are over tap light conveniently sits or mounts anywhere just tap and you've got light it's a clever design tap light is easy to find even in pitch black it's perfect if nature calls in the middle of the night the tap light provides perfect ambient light so you can see without being blinded and when you switch tap light off your eyes will readjust quicker making it easier to fall back to sleep and eliminating accidents that are caused by trying to find your way in the dark not to mention that everyone else will stay sound asleep you can wall mount tap lights as well for places where you need just a little extra illumination but don't have a light fixture like this closet and they're a lot more convenient than flashlights place them around the house as and when you need them tap light gives you the right light where and when you want it tap light is battery-operated it can go anywhere and use it to illuminate a dark stairwell or provide a light for an outdoor party or walkway whatever the weather it makes no difference tap lights are water-resistant - and kids love the tap light they're great for nurseries and they adjust so they're within easy reach tap light can even replace a broken interior light in a car RV or boat and it's safer than candles for a storm that knocks out the power supply similar lights cost up to ten dollars each call now and you'll get four tap lights for 1995 that's less than five dollars a piece but if you call in the next ten minutes as part of this special introductory offer we'll include an extra two tap lights free at six tap lights for 1995 but as part of this special offer you'll also receive 24 batteries for your tap lights absolutely free that's an incredible \$80 value for just 1995 so call the number on the bottom you'll screen right now

Mini Nicer Dicer (Short-form ver.)

https://youtu.be/tbLX_xgdBDw

would you like a way to create foods that look and taste like a gourmet chef have prepared them my Anthony Sullivan here for the mini nicer dicer it's easy to use and saves you time simply place your food on the cutting disk notice your hands never touch the blade then just push down on the container and handle it's that easy the mini nicer dicer actually turns the task of dicing onions into something easy and fun let's mince garlic simply switch the blades and you now have the fastest garlic cutter on the planet I

have nice uniform pieces that contain all of their natural vitamins and nutrients there's no need to struggle with a chef's knife look at how easy it is to get perfectly diced tomatoes the mini nicer dicer's precision cutting blades will simplify your food preparation and give you unparalleled results and because the cups turn into storage containers you can take your own fresh snack with you anytime the European design coupled with German engineering has produced high quality stainless steel blades for precision cutting superior manufacturing guarantees that your blades will never dull and the mini nicer Dicer cleans up in seconds call now to get your mini nicer Dicer with 16 blade top lid and large container a \$30 value for only 1995 but order right now and we'll also include our 30 blade top lid and small container a twenty dollar value yours free as part of this special TV offer we'll send you a genius wedger a ten dollar value just pay shipping and processing it's perfect for tomatoes eggs lemons limes and more you get a full risk-free 30 day money back guarantee and the genius wedger is yours to keep for just trying the mini nicer Dicer so stop chopping the old-fashioned way and start dicing the genius way with the mini nicer Dicer you get perfect results each and every time that means you get all this a \$60 value all for only 1995 plus shipping in processing

Arm&Hammer Total 2-in-1 Dryer Cloths

<https://youtu.be/bELvx2oWlfQ>

Hi Anthony Sullivan here with today's laundry secret. New arm and hammer total two in one dryer cloths. A breakthrough innovation that combines the benefits of liquid fabric softener and dryer sheets into one unique moist cloth. Arm and Hammer dryer cloths deliver a freshness you can smell a softness you can feel and actually see. Watch this. Under 200 times magnification regular laundry fibers look frayed and coarse but by using our moist arm and hammer dryer cloths they look soft and smooth. Each moist cloth is infused with a softening and freshening formula that penetrates deep into the fabric leaving your laundry softer and fresher than ever without using liquid fabric softeners and you'll never have to worry about static cling. They're thicker and more durable than other dryer sheets so you know you'll get results. Arm and Hammer dryer cloths can save you money too. You could spend up to a hundred and twenty dollars a year on both fabric softeners and dryer sheets but our moist arm and hammer dryer cloths combine the benefits of both for a fraction of the cost without having to buy separate fabric softener. Try now to try arm and hammer total two in one dryer cloths for free. For a limited time we'll send you a box of our moist arm and hammer dryer cloths enough for forty loads free. Just pay only two ninety nine shipping and handling. Try it on your family's laundry and you'll not only feel and smell the difference you'll see the difference but you won't find this incredible free offer in any stores. Call now or go online to get your free box of arm and hammer total two in one dryer cloths.

RoboStir Alt.

<https://youtu.be/1AJTNv5S-kg>

Hi Anthony Sullivan here for robestir one of the coolest inventions that I've ever seen. It stirs so you don't have to. The robestir drops into any pot or pan. With the touch of a button it automatically starts to stir. The robestir's specially designed to cover every inch of the bottom of the pan. The silicone feet even get up against the edges so nothing sticks. With the robestir, nothing's left unstirred. Use it any size pot because robestir's one hundred percent waterproof so it even works underwater. It's batter operated and so sturdy it can stir for up to four hours and can stand heat up to five hundred and seventy two degrees. Now you can turn your back on your food and it won't burn. Robostir is great for gravy super for soups and stews and for beans it's the best. Use it to mix marinara marsala. It even has the strength to fold alfredo and churn your cheese sauce. The secret's the orbital gyroscopic action that ensures that no spot is unstirred or untouched. From underneath you can see how the robestir keeps everything moving. It stirs so you don't have to. With the robestir you finally have that third hand in the kitchen so you can get two things done at once. Cleanup's easy and it's dishwasher safe. The award winning robestir sells for forty dollars in Europe but call now and get yours for just nineteen ninety nine. You'll also receive the robestir booster for larger pots and pans a twenty dollar value yours free. As a bonus, you'll also get the scoop and strain the ladle with built-in straining grid. Just pay separate shipping and handling. That means you get all this a sixty dollar value for just nineteen ninety nine.

Pineapple Twist (HQ)

https://youtu.be/XM_8x69-jeE

aloha from the islands Anthony Sullivan here for the pineapple twist the fastest and easiest way to core peel and slice a pineapple here's the twist push in the blade and give it a twist in a turn then simply pull it out remove the handle and slide off the stack then with one simple cut you've got perfect slices every time use the pineapple twist to make fresh salsa Hawaiian style or add some flare to a mouth-watering baked ham let pineapple twist be a hit at your next barbecue and carry the theme right through to a delicious dessert the secrets the specially designed self guiding coring blade that perfectly peels cores and spiral slices pineapples with ease use the pineapple twists to create fresh fruit salads and a tropical twist to grilled chicken or sweeten your fried rice with the pineapple twist nothing goes to waste and you can do even more with the core make delicious tropical drinks or smoothies and serve them up resort style or create beautiful centerpieces for a party and when it comes to desserts the pineapple twist adds a little taste of the islands it's great for cakes pies even flambe and don't forget pineapples good for you make the foods you love tastier and healthier with pineapple twist call now and get the pineapple twist for the low price of just ten dollars but spend 10 dollars with me today and I'll spend 10 dollars right back with you we'll double the value just pay separate processing and handling that means you get two pineapple twists a great value all for just \$10 so call or click now here's how to order

First Alert

<https://youtu.be/D8W3nq0XKb0>

hi Anthony Sullivan here for the First Alert alarm it'll make your home safer for you and your family it installs in seconds with no tools and no wires as soon as the door is opened the alarm goes off use the first alert alarm on every window in the house as soon as it's opened you'll be alerted it can help safeguard young children by alerting you when they get into places that they don't belong use it on sliding doors as soon as the magnetic seal is broken the alarm goes off if you have a swimming pool the First Alert alarm is great and lets you know where your children are going and they add extra security for people who live alone and the elderly there's even a chime feature that's great for use as a doorbell for a home or a business the First Alert alarm installs in seconds just peel off the backing stick them on and it's an easy way to add security and get peace of mind each unit uses sensor technology as soon as the magnetic field between each unit is broken the alarm goes off so even if somebody breaks a window with the first alert alarm the 90 decibel alarm will go off as soon as the window is opened the First Alert alarm lets you worry less and provides more security for your entire family call now and you'll get four first alert alarms complete with batteries for just \$9.99 but order right now and we'll double the value just pay separate shipping and handling that's right you'll get eight first alert alarms complete with batteries for just \$9.99 this television offer is not available in stores here's how to order

Metabolize And Save

<https://youtu.be/hH-40f1mj1s>

if you're taking metabolife or if anyone you know is taking metabolife or if you've ever considered taking metabolife think you should listen to this you see we feel that metabolife is a great success story in fact millions of bottles of this herbal dietary supplement have been sold in malls across the nation and by private distributors the company that sells metabolife has grown at an incredible rate the only problem we find with the product is we feel it's too expensive with a suggested retail price of about fifty dollars per bottle that's why we developed metabolize and save that you can buy directly from us for just 1995 per bottle that's right directly from us with no trips to the mall and no private distributors so you get a great product at a fraction of the price compare for yourself look at the actual information taken from each bottle let's start at the top of the list vitamin e 6 ius in each magnesium 75 milligrams 5 milligrams of zinc and chromium 75 mcg in both look a little further down both products contain these other ingredients to guarana ma huang ginseng ginger golden seal royal jelly just to name a few so why pay \$50 for this when you can pay \$20 for this if you call right now and try metabolize save and are not 100%

satisfied simply return the unused portion for a full and prompt refund but you must call now why pay more for metabolife when you're sure to love metabolize and save at a fraction of the price so call the number on the bottom of your screen right now and metabolize and save

Sonic Scrubber Alt.

<https://youtu.be/V-jLLuBwJcE>

Hard Cuts Easy

<https://youtu.be/mGDlsmMYWIE>

hi Anthony Sullivan here for hard cuts easy the best tile and glass cutter you'll ever own simply score your tile from edge to edge and gently squeeze on the score line hard cuts easy'll cut wall tile and floor tile it'll even cut this half inch thick quarry tile watch this perfect cuts every time it's so easy to use that even a little old lady can do it just give it a squeeze and the tile will break a big floor tile like this won't even fit in a professional tile cutter with hard cuts easy just score it from edge to edge take the tile give it a tap and you get a clean break every time for a tile alone it's worth its weight in gold but it also works great on glass simply score the glass from edge to edge curved cuts or straight cuts it doesn't matter just give it a squeeze for perfect cuts to cut a piece of glass like this you'd need to call a professional watch this this is 8 feet long and it's a quarter inch thick all I'm gonna do is give it a squeeze and then hard cuts easy makes hard cuts easy a pane of broken glass can be a real pain in that pocketbook but not with hard cuts easy fix it yourself and save money precision accuracy makes it ideal for stained glass trivets or mosaics so whether you're in a bathroom or kitchen floor tile or wall tile hard cuts easy makes perfect cuts for a perfect fit call or click now and you'll get hard cuts easy for just \$10.99 but as part of this special offer you can get a second hard cuts easy and the laser straight so you get a perfect level fit each and every time that means you get two hard cuts easy and the laser straight for just \$10.

Handy Hook Mirror

<https://youtu.be/MnZZZ8C5ZH8>

and I'm Anthony Sullivan and we're here with the Handy hook mirror or any way are you frustrated because they're too small too expensive or just tired of having to strain what you need is the Handy hook

mirror it's lightweight shatter resistant and comes in a designer chrome finish or get on a showerhead hook it only car visor hook it anywhere even on a tree and it's great for us guys too when we can't get in the bathroom best of all there's no need for glasses so don't spend two hundred and forty dollars for a mirror like this or a hundred and forty eight dollars for a mirror like this one call now and you'll get the handy hook mirror for just \$19.99 but if you call right now we'll double the value you'll get two handy hook mirrors complete with carrying cases a huge value all for just \$19.99 so call this number right now here's how to order

EZ Stringer (HQ)

<https://youtu.be/wxqoSkOqGPg>

hi Anthony Sullivan here for the easy stringer the fastest easiest way to replace any drawstring guaranteed here's how it works just attach the drawstring to the ez stringer and feed it down the hole then just guide and slide out the other side it pays for itself the first time you use it try putting a string through a straw it's almost impossible but with the EZ stringer it's like a train on a track or water through a hose watch again just guide and slide out the other side restring it with EZ stringer and now it's as good as new use ez stringer for cargo pants or capris why replace it when you can re-lace it just guide and slide out the other side lose your string in the wash don't replace it re-lace it with EZ stringer quickly change drawstring colors or our beads with ease ez stringer is strong enough to save a bulky pair of sweatpants yet gentle enough for delicates why replace it when you can re-lace it so say goodbye to safety pins and coat hangers and hello to the easy way to restring the EZ stringer proudly made right here in the USA call now and get three easy stringers small medium and large for just \$10 just think of the money and time you'll save by re-lacing instead of replacing so if you have one garment that you can't wear easy stringer it will pay for itself but order right now and we'll double the value just pay separate processing and handling you'll get two sets of ez stringers for only \$10 as a bonus we'll even include a 12-pack of drawstrings a \$20 value yours free used them to change or add multiple strings for different looks that means you get two sets of ez stringers and a 12-pack of drawstrings a great value all for only \$10 here's how to order

Zasshu Knife Alt.

<https://youtu.be/d-osd5KPs2E>

hi Anthony Sullivan here for the Zasshu knife it's like a chef's musical instrument for your kitchen it combines the cutting edge of a Mezzaluna knife the chopping power of a cleaver and the versatility of a chef's knife into the one hybrid knife that you won't want to be without it's perfectly balanced and chops all types of foods plus the rounded edge Juliennes quickly and easily the blade is scalloped so nothing sticks to it and with the rubber inset grip it feels great in the hand and won't slip one chef's knife can cost over \$100 but the Zasshu knife is less than \$30 Japanese steel is known for its strength think of sushi knives and samurai blades they stay sharp and they hold their edge imagine the combination of precision engineering and Japanese technology and that's what I have here a precise cutting instrument that stays sharp and cuts anything and everything there's no force or pressure required to cut through thick skin fruits like this cantaloupe and because of the scalloped edges it cuts without sticking use it to complement your current knife set or as your one go-to knife for all your kitchen cutting it'll cut through vegetables fruits meats and cheese and it's just a pleasure to use if there's anything that every kitchen needs it's one good knife don't buy a cheap set that doesn't stay sharp so give the Zasshu knife a try just \$29.99 but order right now and we'll also include this razor-sharp Zasshu paring knife it's smaller and thinner so it's perfect for peeling apples oranges and more it's a \$20 value and it's yours free just pay separate shipping and handling and here's my guarantee if the Zasshu knife isn't the best knife you've ever used simply send it back for full and prompt refund so call this number now to give the Zasshu knife a try for just \$29.99 here's how to order

Secure Sleeve from Identity Stronghold

https://youtu.be/T0J_LD7kFwY

How does this little sleeve protect you from having your credit card number stolen? Many credit cards contain RFID chips that store and transmit your personal information. The problem is you can't turn them off. Now there's secure sleeve from identity stronghold. A protective sleeve that simply slides over your credit card with specially designed RFID blocking technology to protect your identity. Have you used these quick checkouts before? Instead of swiping your credit card you just hold it up to a scanner. Sounds easy but it can also make the crime of stealing your identity even easier. Do you have one of these cards? There's a good chance you do and don't even know it. Your card doesn't even have to be out to have your credit card number stolen. Even in your pocket or purse all it takes is a simple scanner that anyone can buy online. Plus passports since 2007 have RFID chips containing personal information including your picture. Surprised? Many people are. With over ten million identity thefts each year, don't wait to find out if your wallet is transmitting your personal information. Protect yourself with secure sleeves from identity stronghold. They're like a firewall for your wallet. Call now and get a set of four secure sleeves for just nineteen ninety nine. When you order we'll also include the passport secure sleeve absolutely free. But order right now and we'll double this entire offer. That means you get eight credit card secure sleeves and two passport secure sleeves a priceless value all for just nineteen ninety five. What's your identity worth?

Anthony Sullivan with the X5 Mop on HSN (2 Dec '12)

<https://youtu.be/n-3wH1NeeS4>

Instant Alarm

<https://youtu.be/OkdugEu1kZw>

hi Anthony Sullivan here for the new instant alarm system it'll make your home safer for you and your family it installs in seconds with no tools and no wires as soon as the door is open the alarm goes off use the wireless instant alarm on every window in the house as soon as it's opened you'll be alerted it can help safeguard young children by alerting you when they get into places that they don't belong use it on sliding doors as soon as the magnetic seal is broken the alarm goes off if you have a swimming pool the wireless instant alarm is great it lets you know where your children are going and they add extra security for people who live alone and the elderly there's even a chime feature that's great for use as a doorbell for a home or a business just peel off the backing stick them on and it's an easy way to add security and get peace of mind here's how the instant alarm works when the magnetic field between each unit is broken the alarm goes off so even if somebody breaks a window with the wireless instant alarm the 90 decibel alarm will go off and for all an intruder knows the police are on the way the wireless instant alarm lets you worry less and provides more security for your entire family call now and you'll get four instant alarms complete with batteries for just \$19.99 but that's not all order today and we'll give you a second set of four free just pay separate shipping and handling that's right you'll get a total of 8 deluxe wireless instant alarms complete with batteries for just \$19.99 so call the number on the bottom of your screen right now here's how to order

Sully Reacts_Auto Pilot GPS Informercial

https://youtu.be/re9_Z_XcHdg

did getting off in the wrong exit make you late again well now you can be on time every time with the revolutionary new autopilot imagine over 100,000 routes between two hundred and fifty cities including distance and drive time just key in your destination that at the time was a state-of-the-art product believe it or not and it was selling and I was excited about it feeling hungry select the restaurant key and

choose one of the thousands you'll eat where you want when you want it that is the most annoying voice over that I ever did in my life I think I'm actually trying to be American I think this might have been pre internet this was literally state-of-the-art device that people actually bought at the time and I was excited about to sell and we sold hundreds of thousands of these I don't think you can give these away now autopilot gives you weather numbers highway patrol numbers directions to malls and attractions it'll get you there and back again with safety security and peace of mind I think if you gave this to kids now right now they would just disown you they would look at you sideways because you have to take it put it in its historical context at the time this is a very very technologically advanced product it's one for the history books just goes to show times have changed just a little bit thanks for watching and if you liked this video make sure you hit the like button whatever that is remember to subscribe for more great videos like this and be sure to follow me on all the major social media sites like Facebook Twitter and Instagram to stay in the know and you know you want to be in the know

Are You Stuck in a Rut!!!

<https://youtu.be/v6fcbuBiFH0>

get out of your rut if you're not happy with your life you can change it and I can show you how are you stuck in a shitty-ass apartment deal and sweating your lease is your car a total junker do you hate your job it is sucking the last bit of life out of you you want a better life and you don't know how to get it you don't know where to start listen I can give you the tools that you need to change your life and here's the best part it's all in my book I used to live in the back of my van so I know a thing or two about having to suck it up about wanting a better life I didn't know how to get it and I've been unsure but I did it and now I'm going to show you how you can do it's so much simpler than you think find out how you can get a free signed copy of my book by going to AnthonySullivan.com

Sully Reacts_The Weather Station

<https://youtu.be/8EZlkKoLvJ0>

Hi Anthony Sullivan here for the weather station. Nothing changes more than the weather and here's a great new way to watch and learn about the changes in climate that occur right in our own backyard. Ok this might be a low. I think I might have had nothing to do. Firstly I want to know who the hell was doing my wardrobe back then and who was letting me on camera with hair like that. I mean it's unbelievable. It's called the weather station and it records the data that affects everything around us. This product might have been the low point in our production or we might have been coerced or forced into doing this I'm not a hundred percent sure why we did this. The weather station is cleverly designed it includes a wind speed gauge that lets you know if there's a light breeze or if it's time to batten down the hatches. I'm kind of embarrassed about this one I have to be honest. I'm embarrassed. I can't believe I did it. I can't believe I was actually in it. Like I attached myself to the weather station. Um. Things must have been bad that year. That must have been a tough year. Special features include a diametric funnel. It catches enough rain to give you an instant accurate measurement of whether it's raining cats and dogs or just a summer shower. And I do remember the location we shot at the woman who owned the house had an absolute meltdown because we turned her back garden into a swamp because there was so much rain. To buy all these instruments separately could cost you up to fifty dollars but now you can own the weather station for just nineteen ninety nine. Ya weather station let's forget about that one please don't hold it against me alright. We didn't sell any. It didn't sell. It was a bomb. It tanked and I'm happy it tanked. I'm done. Thanks for watching and if you like this video make sure you hit the like button wherever that is. Remember to subscribe for more great videos like this and be sure to follow me on all the major social media sites like facebook twitter and Instagram to stay in the know and you know you want to be in the know.

Mcdonalds Fan is Shocked!!! You have to WATCH NOW!!!

"You Get What You Pitch For" Book Announcement

<https://youtu.be/yDQrMI8TZxc>

alright we're ready hey it's Sully and I just wrapped a commercial shoot that's our makeup artist tracy right there I have some big news to share with you I have written my very first book and I am excited to tell everyone about it it's called you get what you pitch for if you've not been getting what you want analyze if you want to do a little better if you want to get a raise if you want to get a new job if you want to make a little more money then you need to learn how to pitch pretty much everything I've achieved in life it's really been built on the back of my ability to pitch and it's all in the book it's on pre-sale right now and I cannot wait for you to get it now I'm pitching see this this is pitching Anthony Sullivan super excited about my new book you get what you pitch for pick up a copy for yourself or for someone you love that's enough from me for now because I got to go

Kid Inventors Day: March 31 | Orlando Science Center

<https://youtu.be/REbnLDbXDBo>

hey kids this is anthony sullivan your favorite pitch person if you've got an idea or an invention that you think might be right for TV here's your opportunity to pitch it to me all you've got to do is go to Anthony Sullivan.com or Sully on TV.com fill out the registration form and I'll see you March 31st at the Orlando Science Center where you can pitch me your idea and I'll give you on the spot feedback and let you know if it's right for TV so come down and join me March 31st at the Orlando Science Center fill out the form go to AnthonySullivan.com or SullyonTV.com and I will see you there bring your pitch bring your ideas hey who knows you could become a millionaire

Anthony Sullivan Presents Inventor Center: The Robocup

<https://youtu.be/gD0dls8NhrA>

i'm anthony sullivan and welcome to inventor center AJ i think you're the inventor of the robocup but it's hard to tell because i don't see you and i don't hear you you know if you've got a voice you've got to use it to pitch i kind of think your item's sort of cool but you need to see a few more uses um that looks like the bottom of your office desk there we have an inventor that's missing in action so if anyone's seen AJ get in touch with him and let's see this thing in action let's see it on a boat let's see it where else you can use it because at the end of the day if you want to do a commercial for this and you want us to do it we got to come up with 18 to 20 uses for the robocup right now what comes to mind is fishing maybe camping maybe boating in your office i don't think so which is why you showed it to us so that's four uses i need another 12 uses for the robocup so uh help me out here come on help me out hook a brother up tell us what you think comment down below

Inventor Center: The Lid Cinch

<https://youtu.be/MXjbVIhGf9A>

i'm anthony sullivan and welcome to inventor center inventor ray johnson it is your lucky day I just checked out your commercial for the lid cinch it's not the first time that i've seen items that do this sort of thing my friend joy mangano had an item that was that was designed for taking cakes and whatnot to parties in the backs of cars and we got pitched an item in Vegas that was sort of it was a little complicated and we figured you could just put it on the front seat what I would like to know is that pitch or that video you sent us looks to me like a professional video what's with the 11.95 either it's either 9.99 14.99 or 19.99 have you learned nothing my friend nobody sells anything for 11.95 what I would

like to know before I judge this product is how did it do it looks like you tested it tell us what you think comment down below

FRESH Inventor Center: The Cross Case

<https://youtu.be/Xle7XASPtYY>

i'm anthony sullivan and welcome to inventor center this is andrew with his invention the cross case check this out it's the cross case i want to know if you're in the witness protection program andrew because you got some major voice manipulation going on there if I've said this once I must've said it a thousand times stands and covers for phones are not going to work in dr just like toilet products don't and we get hundreds of them submitted here go to your apple store and just see how many are for sale it's been done everyone has the case they like I know it has a little stand on it but there's a lot out there like it it's a really crowded marketplace do not quit your day job I don't think you're going to be retiring on this thanks for the submission but we are going to punt

Inventor Center: The KeyPer

<https://youtu.be/4PZvQnNliVI>

i'm anthony sullivan and welcome to inventor center there's got to be a better way I think there is a better way I think you could use zip ties you know you've been sending me this invention for a long time mrs. keeper or miss keeper I'm not quite sure and I honestly thought it was an invention to do with keys and the video is kind of fun and it's an okay product but I think there's a lot of things out there like it would you rather have this big mess or this really organized mess I think for the most part you want to throw out those cables out because most of them are probably the things you don't even own any more and then honestly what are we going to sell the keeper for these are little pieces of plastic with a little bit of writing on them and I know you look at something like cami secret that's almost the same kind of thing but it solves a big problem I don't know if this is an item I want to thank you for your submission keep them coming but I don't think we'll be keeping the keyper but thank you anyway and good luck tell us what you think comment down below

Inventor Center: The Sticky Buddy

<https://youtu.be/SaZ-PPoCQXg>

i'm anthony sullivan and welcome to inventor center so this next invention was sent to me by an old friend of mine a guy named Tyler Ross now I haven't seen Tyler for about 10 years and I've known him for about 15 years but what I do know about him and what you're gonna find out is he's an old pitchman check this out so interesting product right sticky roller with little fingers on it the sticky roller has been around forever but I do like the fingers I like the fingers I like the spouse hair Mouse hair bird peep line I think this might have some legs but listen to this chi-ching now that gets my attention he did seven grand in one day at a home show or a fair or wherever he was so what's next for Tyler yep that's Tyler and Cindy and me on the way down to Tampa in a jet gettin ready to make a commercial but it gets even better in less than two weeks after testing it guess what it's the number one sticky roller in America and it's number two on the Jordan Whitney report now that is an invention that I'm all about it's the sticky buddy coming live to you right now --- Tyler and Cindy I want to thank you it was a good call going with telebrands I'm looking forward to you moving down to Florida buying a big house down here just don't move in next door to me okay

NEW Inventor Center: The K9 Water Caddy

<https://youtu.be/8IHZHXUg3y8>

i'm anthony sullivan and welcome to inventor center this is an invention for dogs check it out it's impossible to say that I don't like this invention for the pure fact that you're hydrating cute little puppies

look at the cute little puppies look at the cute little puppies I think if I said I didn't like this invention every single dog lover in America will hate me and the world will hate me so you know what I love this invention send me one of these I want to try it and if you ever actually seen people take that bottle of water and they kind of like give the dog a drink and then they swig out of it themselves I like this it sets it apart from the human drink and the dog drink so send us one of these I like it keep your canine hydrated alright a lot of dogs I love this send it to us

H2o Mop: X5

<https://youtu.be/vtpdLu1pUJI>

hi Anthony Sullivan here for the new h2o mop x5 in the next two minutes I'm going to show you how you can clean green with steam in every room in your house now with variable continuous chemical free steam use the x5 on any hard floor surface the steam loosens the dirt while the microfiber lifts and locks it in set it on high for hard surfaces like laminate and marble or dial it down to low for sealed wood floors it cleans polishes and leaves a streak free shine clean sanitize and deodorize with the power of steam the x5 even comes with a carpet glider so you can easily refresh and deodorize your carpets and rugs but it gets even better all I've got to do is unclick the handle like this push the button on the base of the mop now I've got one of the best handheld steamers you'll ever use get rid of the stink in your sink get around fixtures and fittings it heats up in seconds and is even lab tested to help kill 99% of E coli and Salmonella whether you're in the kitchen or cleaning up in the bathroom get it clean with the power of steam use it all around the house it comes with great attachments like this jet nozzle for cleaning grout and tough jobs like an outdoor grill use it with the extension hose to clean windows glass and mirrors with no streaks or smears or blades banisters and blinds using just the power of steam as a garment steamer it's the best any surface in your home indoors outdoors kitchen bathroom or floors the x5 helps clean sanitize and deodorize you'll get the x5 steam cleaning system complete with microfiber pad the carpet glider the handheld steamer with jet nozzle and attachable nylon and wire brushes the window glass and mirror steamer the garment steamer and upholstery bonnet the extension hose and the dusting and polishing wand I'm so convinced that you're gonna love the x5 I'm gonna let you try it risk-free for 30 days and I'll even ship it to you absolutely free that's right free to find out more about the x5 visit our website or you can order now

Sully and Jennifer Behind the Scenes

<https://youtu.be/N6TKQJc2LRA>

H2O X5

<https://youtu.be/9ISohzuE99Y>

hi Anthony Sullivan here for the h2o x5 steam machine from Thane it's the what's next in steam cleaning at four and a half pounds it's five steam is in one and it's the only steamer with continuous steam and variable steam first it's the best hard floor steam mop money can buy second just popp in the glider and the x5 instantly becomes an amazing carpet steamer and deodorizer third the x5 is the most versatile handheld steamer you'll ever use it's loaded with attachments and will clean and sanitize just about any surface in the home fourth with its adjustable steam the x5 becomes a garment steamer use it for cleaning clothing bedding drapes and more and fifth the x5 converts to a window and glass steamer with squeegee no streaks and smears on your windows and mirrors the x5 five steam is in one it'll sanitize and deodorize your entire home from top to bottom brought to you by the first name in steam Thane coming to televisions everywhere worldwide

One Second Needle

<https://youtu.be/Dh32vzvf9ag>

hi Anthony Sullivan here for the one second needle the needle with the built-in threader instead of taking the thread to the needle you take the needle to the thread just loop and thread it's that easy this is a giant one second needle all you do is loop and thread it's that easy use it for sewing buttons hemming pants mending tears and more the 1 second needle is so simple it's the only needle that you can thread blindfolded watch again with one simple motion your needle is threaded it's that simple just loop and thread now you can tackle all those projects quick and easy and if you snag a sweater the 1 second needle is the only one that can bury the snag just loop and thread no more parking multiple needles with one second needle changing thread colors is easy quilters can bury the strand even on short threads so you can easily hide those little ends whether you're a novice sewer or an expert tailor anyone can thread easily with the 1 second needle call now you'll get four one second needles two large and two small for just \$10.99 and order now and find out about free shipping as a bonus we'll double the value to 8 1 second needles just pay separate processing and we'll send you a surprise gift a \$20 value yours today as a special bonus that means you get eight one second needles and the surprise gift a \$40 value for just \$10.99 and remember call right now and find out about free ship

Swivel Sweeper

https://youtu.be/8Y6_JM132rM

hi Anthony Sullivan here now you can experience what millions of people already know about the most advanced sweeper in the world the secret to the Swivel Sweeper is underneath it uses sliders not wheels so it goes where no other sweeper can a click to empty but one of the reasons I like it is that it holds up the space-saving storage and here's another reason why ordering today is a great you'll love your swivel sweeper's

Stick Up Bulb

<https://youtu.be/YAH-A3XXw7Q>

hi Anthony Sullivan here for the wireless stick up light bulb a battery-operated light bulb that you can install without an electrician just stick up the base slide in the bulb and you've got light it's that easy there's no wires and no complicated installation now you can have light anytime anyplace anywhere just stick it up pull the cord and you've got light the stick up bulb is safe for kids and it easily puts light within their reach unlike glass bulbs that break the stick up bulb is shatter proof if you drop it there's no dangerous wires to mess with either the stick up bulb installs instantly stays cool to the touch and has a 10 year guarantee around the house or on the car don't use hot clip-on lights when you can use the stick up bulb the stick up bulb is perfect for attics and basements have a closet that needs illumination use the stick up bulb just stick it up and you've got light use one anywhere you need extra light nothing is easier to fit underneath the kitchen counter and they're perfect inside for a tool shed if you don't have power use them outside as a wireless light for decks or patios and they're great for camping in RVs if the power goes out you can depend on the power of the stick up bulb and each one slides out to become a handy Lantern this electrician charged a hundred and eighty dollars to install one light bulb call now you'll get not one but two Wireless stick up bulbs for just \$19.99 we'll also include the owl optical wallet light free just pay separate shipping and handling the magnifying lens and built-in light are perfect for helping you read menus receipts and more and it fits right inside your wallet that means you get all this a \$60 value all for just \$19.99 you can be sure if it's Westinghouse here's how to order

Listen up! Graduates

<https://youtu.be/iKGw3sfMH9E>

Graduates listen up. You're probably wondering how to get the job you want, right, and you don't have any experience? Guess what. You don't need it. Don't let them make you think you can't do something because you haven't got the experience or the resume. Listen, I talked myself into an industry where I

had zero experience. I am talking zip zero nada. At twenty three years old I had the balls to walk into a network executive's office at the largest shopping channel in the world and pitch my way onto the screen. I will teach you how to command respect and get what you want regardless of what your resume says. Your resume may be good, you need to be great and I will teach you how to be. It's all in my new book, "You Get What You Pitch For." Don't let them fool you. It's easier than you think. Get it and get it now. Find out how you can get a free signed copy of my book by going to anthonysullivan.com.

Sully Reacts_ Clever Cam

<https://youtu.be/TiKNY6bq7BY>

what if there was a camera that required no film that took pictures and shot video and was the size of a pen well now there is and it's called the clever cam because it's three cameras in one I was in love with that product when it came out I mean what if there was a camera the size of a pen and then I pull out the biggest jumbo sharpie you can imagine I mean that was a technological advancement that the world hadn't seen it was a pen or a camera that there was the size of a pen at the time that was a cutting-edge cutting-edge product don't make fun of that product the clever cam never requires film and it instantly takes and stores up to three hundred and twenty pictures and when you're ready to view them just load the software that's included and you can send pictures or video all over the world to family and friends on the internet print and manipulate pictures too you got to listen to me I'm I can you can send pictures to family and friends all over the world big deal and you can print and manipulate pictures too with this CD that's included um what's a CD does anyone remember a CD clever cam catches up to 320 priceless memories or 45 seconds of streaming video 45 seconds of streaming video ooh big deal the clever cam is smaller quicker and is yours for just four easy payments of \$19.99 now I don't think you would even sell one of those today that was only ten years ago not even I mean look how young I look I'm skinny and I'm wearing an orange shirt thanks for watching and if you liked this video make sure you hit the like button wherever that is remember to subscribe for more great videos like this and be sure to follow me on all the major social media sites like Facebook Twitter and Instagram to stay in the know and you know you want to be in the know

Sully Reacts To The Handy Hook Mirror

<https://youtu.be/qlne7Z0CdNc>

I'm Anthony Sullivan and we're here with the Handy hook mirror that's me and Oscar nominated joy Mangano right there I always made a mistake with joy because I used to say it's my British I would say joy Mangano and she would always slap me it's Mangano look who I'm working with I mean I am standing there in the presence of greatness when I look back at it I'm not quite sure if I really do bring anything to the project I think people look at that go get the skinny English guy out of the way why is even in the show this is Joy Mangano's Joy insisted actually wasn't Joy it was one of Joy's people she insisted on this line saying and I had to look at her and say hey Joy you're so smart you're so smart Joy it makes me think that Joy obviously saw something in me that I would bring something to this project because I think Joy's a powerhouse I mean they made a movie about her Robert De Niro played her father and Jennifer Lawrence who have a crush on I invented the dog collar played her but Joy obviously felt that I would bring something to this project I'm very proud of that work there's that we should bring that product back bring back the Handy hook mirror it's a good product good problem-solving product right there that's all I have to say about that thanks for watching and if you liked this video make sure you hit the like button wherever that is remember to subscribe for more great videos like this and be sure to follow me on all the major social media sites like Facebook Twitter and Instagram to stay in the know and you know you want to be in the know

Hurricane Spin Duster

<https://youtu.be/Qz6p38nMHyE>

hi Anthony Sullivan here for the hurricane spin duster the lightweight portable spinning duster that's like a hurricane of clean it uses static electricity to pick up dust like a magnet the secret's the thousands of electrostatically charged us grabbing bristles that attract and trap the dust so nothing's left behind just press and it spins into action spinning surfaces clean for impossible places like bookshelves and blinds there's nothing better than the hurricane spin duster get deep into corners and crevices conform to fixtures and fittings and get in and around hard-to-reach places like magic these ultra soft dust-grabbing fingers leave a path of clean dust without having to move a thing it conforms to all shapes and sizes gets into nooks and crannies cleaning and dusting the first time every time

Better TV: The OxiClean Fishbowl Demonstration

<https://youtu.be/lCvSy4YFGY0>

It's great to be here audra. Let me show you let me get right down to it. Bottom line is everyone has stains. They happen every day. Pet stains food stains children stains. I've got an eighteen month old so I know what it's all about but not just stains odor too and I want to show you some demonstrations with oxiclean to kind of take the myth away. And you know if you use bleach. Everyone's used bleach before. When I use bleach if you ever use it I hold it over here and you worry this invisible drip gets on your clothes and your clothes end up looking like this. When you use oxiclean it's safe on colors. You put your hands in it and I'm gonna stop the talking and let oxiclean do the talking. You'll see what's going to happen it's just a big dark mess. I'm gonna add a scoop of oxiclean. You'll notice if I put my hands in here. Powered by the air you breathe activated by the water you and I drink. If you ever get a red sock in with the whites you can see there's the red sock. This is what happens in your laundry. One scoop in every load it'll make your whites whiter it'll make your brights brighter and you can see it's safe as well. No harsh chemicals. When you use oxiclean it's total peace of mind.

The Fridge Locker Commercial

https://youtu.be/hd_U9HolRxU

hi Anthony Sullivan here for the fridge Locker the easy-to-use personal portable food security system simply put your food or drinks into the fridge Locker set the lock to your secret combination and now your food is secured wherever you take it wanna keep snacks under wraps so the kids don't grab too many now you can help monitor what your kids eat with the fridge Locker use your fridge Locker in the fridge freezer or pantry and for easy access the door becomes a shelf unlike other containers the fridge locker's well ventilated so it won't trap odors if you live with anyone who has food allergies the fridge Locker can store eggs shellfish wheat products or anything you want to keep safe I know what you're thinking what prevents someone from taking the whole fridge locker well even if you take it you still can't get into it it's so strong it'll hold my body weight still not convinced we put it to the ultimate strength test this is a real live 800-pound grizzly bear and even he's having a hard time getting into the fridge Locker I just hope you don't have a bear in your house whether you're in a dorm office at home or traveling for securing sweet snacks ol or sodas if you want to keep it safe put it in the fridge Locker call now and get the fridge Locker for just \$19.99 but spend twenty dollars with me today and I'll spend twenty dollars right back with you order right now and we'll send you a second fridge Locker for a friend or a family member or a second fridge absolutely free just pay separate shipping and handling that means you get two fridge lockers a great value all for just \$19.99 so stop those refriger-raiders and keep it safe with the fridge Locker

Hog Wash Scrubber - As Seen On TV

<https://youtu.be/HnpAEli8hJQ>

hi Anthony Sullivan here for the hogwash scrubber it goes from a tough scrubber for the dirtiest jobs to a gentle sponge using just water when you use it cold it's rock-hard but when I use it hot it's soft and squeezey and makes delicate jobs easy peasy the hogwash'll clean the toughest kitchen messes using only water and never scratches it's amazing if you've been cooking and it's boiled over turn to the power of the hogwash even on this delicate stovetop want to see the difference between hot and cold the right sides hot and the left sides cold look at that the hog wash makes cleaning an oven door quick and easy it cuts through the grease and the grime and years of buildup other sponges get dirty moldy and stinky but hogwash keeps looking and smelling like new and the best part is it's mold resistant the hog wash has specially designed holes for cleaning to the bottom of a glass or vase and it cleans both sides of cutlery at once the ears get into nooks crannies and crevices quick and easy and hogwash is safe on delicate surfaces this ordinary scrubber scratches the table while the hog wash cleans without scratching guaranteed take it outside for bugs on a windshield a brake dust on a hubcap or road film nothing's better I can even use the hog wash scrubber on this \$300,000 car it's scrubs without scratching and it doesn't leave a mark look at that and the hog wash is proudly made in the USA

NEW invention review: The Genie Pan

<https://youtu.be/d77yl9UUo-s>

I just checked out your invention the genie pan I'm not quite sure if you can have that name because I think it's already taken so first thing's first see if you can actually get the name genie pan I have to admit at the end of your video my mouth was watering I was hungry cookies Snickers bars inside the layer cake baking right now is a big category a lot of people bake and people love to eat and I think what you came up with was really unique and a real kind of new way of solving an old problem cause I'm pretty sure the cookies and the Snickers would sink to the bottom the layer cake pan I think we got to come up with a better name I think the little skewers probably would have to be made out of metal do you have a sample if you do have a sample send it to my office we'll check it out and we'll get back to you and can you please make your layer cake with some cookies and also fedex that down to us as well so make sure it's overnight don't three-day it all right okay we got to have it fresh the next day okay so please send a sample and send us some cake because we like cake
